

LifeSafety Power E5M

BluBOX Very Small Wall Mount Enclosure
8.5"H X 11"W X 3"D | 7 lbs.

BluBOX multi-purpose enclosures offer maximum flexibility, functionality and savings to access system designers. BluBOX enclosures are engineered to house power management boards alongside access hardware in one compact, secure system. If power supply is required, then one FP075 power supply and one access board can be mounted side by side.

To prevent damage to system electronics, the backplate separates from the enclosure for access hardware mounting in the shop while wiring is pulled to the enclosure at the job site. Once completed, the backplate can be remounted for final terminations.

Features

- Mounts LifeSafety power and access hardware in a variety of combinations
- Mechanical refinements
 - 17 Gauge steel with textured blue finish
 - Lock and tamper switch standard

E5M Backplate Board Mounting

Access Boards	BluBOX Order #	Board Size	Max Fit w/ Power	Max Fit Access Only
