What is TRUE Mobile Security?

ANY CONTENT, ANY DEVICE, ANYWHERE, ANYTIME

In today's digital age, the term "mobile security" is thrown around often, but what is TRUE mobile security and what does it mean for your business? For BluBØX, it's not just about locking doors and setting alarms. It's about a comprehensive, real-time approach to security that empowers you to take control, no matter where you are, no matter when an incident occurs.

### Key Aspects of BluBØX's TRUE Mobile Security:

- Real-time administration, control & monitoring - because security waits for no one.
- View video from ANYWHERE - keep an eye on what matters most.
- One-touch facility lockdown from anywhere - safety at your fingertips.
- Precise location service inside any building - harnessing people analytics to optimize spaces.
- Mobile based access; BluREMOTE, BluID, BluPASS - the future of access.
- Control Destination Dispatch and Two Button elevators - elevate your security.
- Take "selfie" pictures for badges - personalization meets security.
- Reception door release & alarm response with video integration - seamless and integrated.
- Virtual credential simulation & issue BluPASS temporary mobile credentials for guests - convenience redefined.
- Intercom with integrated door release - communicate with confidence.
- Push notifications and video intercom with BluSKY Mobile App - stay connected, stay secure.

Any Device   **Anywhere**   **Anytime**   **Any Browser**

Our promise? 100% Full Functionality. Any Content, Any Device, Anywhere, Anytime.
Because TRUE mobile security isn't just a feature, it's a commitment.
